

```
describe BluePlanet do
  let(:me) { BluePlanet.new }

  it { me.name.should == "鱼振江" }
  it { me.twitter.should == "@blueplanet42" }
  it { me.location.should == "横滨" }
  it { me.job.should == "CSharp" }
  it { me.ruby_age.should == "2 year" }
end
```

RSpec Study

- ⌚ 基本概念
- ⌚ rspec-rails
 - ⌚ rails g rspec:install && rails g scaffold ...
- ⌚ Capybara
- ⌚ The RSpec Book

基本概念

- ④ describe / context / it
- ④ shoud / expect
- ④ macher
 - ④ eq / be_ / have_
- ④ etc

rspec-rails

- ⦿ Gemfile

```
group :development, :test do
  gem 'rspec-rails'
end
```

- ⦿ rails g rspec:install

- ⦿ rails g scaffold item name price:integer
on_sales:boolean description:text

- ⦿ rake db:migrate && rake db:test:prepare

```
rails g scaffold item name price:integer on_sales:boolean description:text
  invoke  active_record
  create    db/migrate/20130419020242_create_items.rb
  create    app/models/item.rb
  invoke  rspec
  create    spec/models/item_spec.rb
  invoke  resource_route
    route    resources :items
  invoke  scaffold_controller
  create    app/controllers/items_controller.rb
  invoke  erb
    app/views/items
    app/views/items/index.html.erb
    app/views/items/edit.html.erb
    app/views/items/show.html.erb
    app/views/items/new.html.erb
    app/views/items/_form.html.erb
  invoke  rspec
  create    spec/controllers/items_controller_spec.rb
  create    spec/views/items/edit.html.erb_spec.rb
  create    spec/views/items/index.html.erb_spec.rb
  create    spec/views/items/new.html.erb_spec.rb
  create    spec/views/items/show.html.erb_spec.rb
  create    spec/routing/items_routing_spec.rb
  invoke  rspec
  create    spec/requests/items_spec.rb
  invoke  helper
  create    app/helpers/items_helper.rb
  invoke  rspec
  create    spec/helpers/items_helper_spec.rb
```

Capybara

```
describe "the signup process", :type => :feature do
  before :each do
    User.make(:email => 'user@example.com', :password => 'caplin')
  end

  it "signs me in" do
    visit '/sessions/new'
    within("#session") do
      fill_in 'Login', :with => 'user@example.com'
      fill_in 'Password', :with => 'password'
    end
    click_link 'Sign in'
    page.should have_content 'Success'
  end
end
```
